Hello Oronjo, I am your ATM Financial Advisor from Supreme Money Coach. Here is your personalized financial update:

1. SAVINGS PACE ANALYSIS

Your net balance currently stands at Ksh 919. Over the past 3 weeks of saving, you have deposited a total of Ksh 939. This gives you an average weekly saving of Ksh 313.

Looking at your weekly records, your contributions have varied significantly: Ksh 750 in Week 1, Ksh 61 in Week 2, and Ksh 128 in Week 3. While you have made deposits, there was also a withdrawal of Ksh 20 in Week 4 which impacted your overall progress.

2. GOAL FORECAST

Based on your current balance of Ksh 919, your stated progress towards your Ksh 11000 goal is 6.1%.

To achieve your current financial target of Ksh 14081 within the projected 45 weeks, you need to save an average of Ksh 312.91 per week. Your current average of Ksh 313 per week is perfectly on track with this requirement.

If you maintain this consistent average weekly saving, you are forecasted to reach your Ksh 14081 target by approximately April 27, 2027.

3. SPENDING WARNINGS

Your recent withdrawal of Ksh 20, categorized as a PARTIAL_PAYMENT, indicates spending that directly reduces your savings. Even small withdrawals can cumulatively slow down your progress towards your goal.

The fluctuating nature of your weekly deposits (Ksh 750, Ksh 61, Ksh 128) suggests an inconsistent saving habit. While your average is good, high variability can make it harder to stick to a plan and forecast effectively.

4. TOP 3 RECOMMENDATIONS

1. Enhance Savings Consistency: Aim for a regular, consistent weekly deposit amount that you can comfortably maintain. This creates a predictable saving pattern and helps build discipline.

2. Minimize Withdrawals: Prioritize avoiding any withdrawals from your savings account. Each withdrawal directly extends the time it will take to reach your goal. Consider setting a small emergency fund separately to cover unexpected minor expenses.

3. Review Your Goal: It appears your current target is Ksh 14081, while your initial stated goal was Ksh 11000. Clarify your ultimate financial objective to ensure all your efforts are aligned towards the most impactful target.

5. MOTIVATIONAL MESSAGE

Oronjo, you have taken the crucial first steps towards securing your financial future, and your current average saving pace is right where it needs to be! Remember, every shilling saved is a step closer to your aspirations. Stay focused, stay consistent, and keep building that financial strength. Supreme Money Coach is here to support you every step of the way!
